

Appln. No. 10/733,970
Amendment submitted with Issue Fee
dated December 2, 2005
Reply to Notice of September 7, 2005

Amendments to the Drawings

The attached drawing sheet includes changes for the correction of a typographical error in to Figure 23E. A marked up copy of Figure 23E is attached for reference. Please replace the following original drawing sheets with the attached substitute sheets:

the drawing sheet carrying Figure 23E.

R E M A R K S

Applicants submit the above amendments along with transmittal of the issue fee and request entry of the amendments pursuant to 37 CFR 1.312. The said amendments embody merely the correction of formal matters in the specification and drawings, and without changing the scope of any claims. Applicants' amendments correct typographical errors in the specification and drawings.

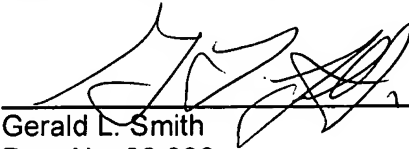

The amendments to the specification are for the correction of typographical and grammatical errors. Specifically, two numbers were mis-transcribed from the drawings, such that the typographical errors are obvious from their context in the text and drawings.

The attached substitute drawing sheets are for the correction of typographical errors in the figure legends. The word "timing" was misspelled in Figure 23E, box 1232.

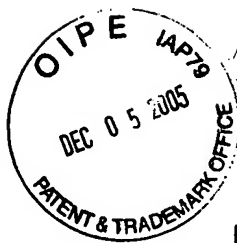

All of the submitted amendments are of a formal nature only. Consequently no new matter is introduced by any of these amendments to the specification. Entry of the amendments and passage of the application to issuance is respectfully requested.

Respectfully submitted,

Date: 2 Dec 2005
